SUMMARY

I'm a logical and enthusiastic student, eager to learn and explore the complexities of the ever-growing field of technology. I'm an Ambitious and driven individual ready to seize the opportunity to learn from professionals and do the hard work.

EXPERIENCE

- Volunteer Robotics instructor**, *GameFace 4:13* 03/21/2025 – 03/22/2025
- Designed and led robotics workshops, teaching programming and engineering concepts through hands-on projects.
 - Mentored a team of 5 students in robotics programming and design, guiding them through coding, debugging, and building projects to develop problem-solving skills.
- Intern**, *Emtec Company* 07/06/2022 – 09/08/2022
Jacksonville, FL
- Ensured computers were robust, stable, and ready for high-end consumer delivery.
- Claims Examiner**, *Florida Blue* 06/28/2023 – 07/28/2025
Jacksonville, FL
- Ensured quality claims were reviewed and up to date
 - Developed automated tools and calculators to streamline claims processing
 - Proficient in Claims systems and Data Entry.

EDUCATION

- Bachelor of Science in Computer Science**, *University of North Florida (UNF)* Expected: 2026
- A.A Degree**, *Florida State College Jacksonville (FSCJ)* 08/2024
- High School Education**, *Darnell Cookman Middle/High School* 05/2023

TECHNICAL SKILLS

- | | |
|---|---|
| JavaScript Programming | Java Programming |
| C Programming | SQL |
| IBM Z/Mainframe (Z/OS, RACF, SSO, TSO/E, JCL, REXX, Linux) | Code Analysis and Development |
| Time Management and Organization | Web technologies: HTML/CSS, Node.js |
| Tools/Platforms: Git/GitHub, Visual Studio Code, Eclipse | z16 Mainframe |
| Enterprise COBOL | Experience providing enterprise business solutions through mainframe development, including job configuration and automation using JCL. |

CERTIFICATIONS

- IBM Z Xplore - All Star**
Highest credential in the IBM Z Xplore program; demonstrated proficiency in mainframe programming, enterprise computing, and system administration using TSO, JCL, RACF, DFSMS, Db2, Linux, and VS Code/Zowe.
- IBM Z101**
Enterprise mainframe systems certification demonstrating foundational knowledge of IBM Z architecture, z/OS administration, and mainframe computing principles for large-scale business operations. Validates understanding of system navigation, workload management, and infrastructure supporting mission-critical enterprise applications
